# A FULL 4 9/16" FRAME WITH INTEGRAL BRICKMOLD, NAILING FIN AND J-CHANNEL

Imagine a vinyl window with the classic look of a wood window. No need to imagine anymore. Now you can see for yourself. The **Designer Classic** from Chelsea Building Products

We started with a full width frame designed for 4 9/16" wall construction. We then incorporated an integral brickmold, J-channel and nailing fin into the frame design to give the window its unique exterior wood appearance. Add the sloped sill, and you have many of the features found in today's wood window with all the added advantages of vinyl.

## PRODUCT FEATURES

- Full width frame(4 9/16" wall construction)
- Classic exterior wood window look
- Integral J-channel and nailing fin
- Welded frame and sash
- Sloped Sill; double wall interior dam leg

- Integral interlocks at the meeting rails
- Exterior glazing; 7/8" insulated glass
- Integral Lift Handle
- 2" extension jamb for 6 9/16" installation

A unique feature of this window is a cellular strip on the inside of the frame that can receive nails or staples. Interior trim can be easily attached to the window without having to worry about nailing through the PVC frame. A 1/4" reveal accurately locates the interior wood trim.

## AVAILABLE IN A DOUBLE HUNG AND DEDICATED PICTURE UNIT.

You will be pleased with how little maintenance is required to keep your new windows beautiful. They won't swell, crack, pit, rust or corrode. Year after year, they will retain their good looks, reduce energy costs, and make your home more comfortable. And each one comes with a written, limited lifetime warranty on all vinyl components.
